This stunning project spans over 70,000 square meters of prime land in San Antonio, ideally located close to all essential amenities and only a 5-minute drive from Cala Bassa. This unique finca is one of the last of its kind on the island of Ibiza, featuring exceptional characteristics like a private water source and a beautiful almond tree grove. The property also offers the option to include sports facilities.

Situated in the desirable San Agustín area, this finca is among the final properties available on Ibiza with such expansive land, offering both sunset and sea views. The build will adhere to the highest quality standards, managed by the renowned Mimax Group. The construction license is expected by Q4 2024.

Beautiful rare Finca style property in Ibiza with sea views over San Antonio bay, situated within 10 minutes to amazing, fine dining restaurants and supermarkets.

Cala basa beach club: 6 min drive

## Our Services

### Building

Mimax manages the entire construction process from start to finish with our inhouse team of architects, designers, and skilled tradespeople.

As construction experts, we guide you through each step, ensuring a smooth and professional experience

### Developing

At Mimax, we offer unique investment opportunities for those interested in partnering with us on developments.

You can invest through joint ventures, equity, or loans, and we handle every aspect of the project -from construction to sale-keeping you fully informed throughout.

### Buying and Selling

Our team of property sales experts develops unparalleled marketing strategies and content to provide the highest level of sales service for your property.

We also assist clients looking to buy on the island, leveraging our extensive network and our own developments to ensure a seamless buying experience.

We offer a full end to end property service to no matter what stage you would like to enter the real estate market in whether that be building, investing buying or selling.

We do it all
